## Work

---

### **Gallery Design Studio (GDS) Independent Contractor** Current Position

Gallery Design Studio is a B2B client-based design studio in New York. I work with GDS' clients, design team and marketing team to produce design assets like buttons, eBooks and case studies. I also revise existing templates, organize asset files and work alongside the full-time staff.

### **Freelance Graphic Designer** Ongoing

I work with clients to help explore and visualize their businesses to their fullest potentials. I've been able to work with independent and luxury fashion brands, event production, artists and photographers on various projects like portfolios, web design and branding.

### **Welcome Center Student Worker at The New School** Spring 2019-Spring 2021

As a student worker, I worked the front desk and led private tours or groups of up to 60 people. I registered guests, answered questions and gave advice to applicants. I was selected as Tour Guide of the month in July 2019, and appeared in Promotional videos.

### **Intern at Printed Matter and PM St Marks** 2019-2019

I helped organize and restock the retail space to feature new work and current events. I also designed event posters, advertisements, and social media posts using archival materials to engage customers digitally. I worked two booths during fairs, including Pioneer Works and Cooper Union's Typographics Festival.
